PREFACE

This publication of campaign financing for the 1992 elections includes a compilation of financial reports of candidates for statewide offices and state district offices as well as political committees organized to support or to oppose statewide ballot issues.

Totals of money received and spent for the 1992 elections for federal candidates (those running for the U. S. Congress) are also included. These totals were provided by the Federal Election Commission in Washington, DC.

Status of each candidate is abbreviated and shown as follows:

(D)	Democratic Party
(R)	Republican Party
(I)	Independent
(L)	Libertarian Party
(NP)	Nonpartisan

Incumbents are designated by an asterisk (*) before their names.

The information presented in this publication was compiled from campaign finance reports filed with the Commissioner of Political Practices. The information, therefore, is only as accurate and complete as the reports filed by candidates and committees. Any absence of information in this book results from a failure of the candidate or committee to report that information.
